INDEPENDENT AUDITORS' REPORT

To the Board of Directors
MSI-US
Washington, DC

We have audited the accompanying financial statements of MSI-US, which comprise the statements of financial position as of December 31, 2014 and 2013, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in its material respects, the financial position of MSI-US as of December 31, 2014 and 2013, and the changes in net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE A – Organization & Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Organization

MSI-US, a nonprofit organization based in Washington, DC., is a supporting organization for Marie Stopes International (dba MSI). Since its founding in 1998, MSI-US's primary purpose has been to provide support for MSI's family planning and reproductive health services program. These activities are funded primarily through public contributions.

Risks and Uncertainties

MSI-US depends heavily on contributions for its revenue. The ability of certain of MSI-US's contributors to continue giving amounts comparable to prior years may be dependent upon current and future overall economic conditions. While MSI-US's Board of Directors believes MSI-US has the resources to continue its programs, its ability to do so and the extent to which it continues, may be dependent on the above factors.

Basis of Accounting

The financial statements of MSI-US have been prepared on the accrual basis of accounting, which presents financial position, results of operations and cash flows in accordance with accounting principles generally accepted in the United States of America. Therefore, revenue and related assets are recognized when earned and expenses and related liabilities are recognized when incurred.

Cash and Cash Equivalents

MSI-US considers all highly liquid instruments, which are to be used for current operations and which have an original maturity of three months or less, to be cash and cash equivalents.

NOTE A – Organization & Summary of Significant Accounting Policies (Continued)

Fixed Assets

Fixed assets are recorded at cost. MSI-US capitalizes all expenditures for fixed assets of \$1,000 or more. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the assets or the lease period for leases. When assets are sold or otherwise disposed of, the asset and related accumulated depreciation and amortization are removed from the accounts, and any remaining gain or loss is included in operations. Repairs and maintenance are charged to expense when incurred.

Unrestricted Net Assets

Unrestricted net assets are available for use in general operations.

Revenue Recognition

Revenue is recognized when earned. Contributions are reported when an unconditional promise to give is received.

Expenses

Expenses are recognized by MSI-US during the period in which they are incurred. Expenses paid in advance and not yet incurred are deferred to the applicable period.

Functional Allocation of Expenses

The costs of providing various program and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

MSI-US had no sources of unrelated business income for the years ended December 31, 2014 and 2013.

NOTE B – Concentrations of Credit Risk

MSI-US maintains cash accounts with federally-insured banks. While the amounts at times exceeds the amount guaranteed by the Federal Deposit Insurance Corporation (FDIC) and, therefore, bears some risk, MSI-US has not experienced, nor does it anticipate any loss of funds.
